

## San Antonio-Based Cybersecurity Firm, 7tech Wins National Cybersecurity Honor at Prestigious Kaseya MSP Titans of the Industry Awards

One of the nation's most selective awards programs, recognizing global excellence in managed services and cybersecurity, names 7tech a winner for Advanced Cybersecurity

---

### FOR IMMEDIATE RELEASE

**San Antonio, TX – December 10, 2025** – 7tech, a Texas-based Managed Security Services Provider (MSSP) specializing in cybersecurity and IT solutions for small to mid-sized, regulated businesses, has been named a **winner of the Advanced Cybersecurity Award** at the internationally recognized **2025 Kaseya MSP Titans of the Industry Awards**, held last week in Beverly Hills.

With nominees representing the top echelon of MSPs and MSSPs across North America, Europe, and beyond, the Titans Awards are among the **most selective and competitive honors in the industry**. Earning a win, especially in the Advanced Cybersecurity category, places 7tech among a global league of elite cybersecurity providers, recognized for innovation, threat response, and client impact.

*"Being chosen for this award out of such an exceptional field is incredibly humbling," said **Neal Juern**, CEO and Founder of 7tech. "We're proud to represent San Antonio and the great state of Texas on a national stage. This award belongs to our dedicated team and the forward-thinking clients who trust us to protect their organizations every single day."*

*"To our clients – thank you for trusting us with your business, your data, and your reputation. To our staff – your commitment, professionalism, and care is the backbone of everything we do," added Juern.*

## From Local MSP to Nationally Ranked MSSP: A 13-Year Journey of Cyber Resilience

Founded in **San Antonio in 2012**, 7tech has evolved from a regional IT support provider into a fully certified, nationally recognized **MSSP**. 7tech serves businesses across Texas offering services purpose-built for compliance-heavy industries like **construction, healthcare, finance, legal, manufacturing, and nonprofit** sectors.

Rather than outsource critical functions like many MSPs, 7tech has invested in building its own **private, US-based Security Operations Center (SOC)**. Combined with a **zero-trust, triple-layered defense strategy**, 7tech provides protection that prevents, detects, and contains threats, **before they disrupt operations**.

The company supports over **2,600 end users** across over **68 organizations**, with a **98.2% satisfaction rating, 20-minute average response time, and 94% client retention rate**—testament to a client experience that prioritizes both performance and peace of mind.

### About 7tech

7tech is a Texas-based Managed Security Services Provider (MSSP) delivering cybersecurity, compliance, and managed IT services to small and mid-sized businesses. Known for its exclusive, in-house Security Operations Center (SOC), 7tech offers a unique **Zero-Compromise Cybersecurity™** approach that combines real-time protection with a human-first client experience. Clients trust 7tech to keep them **compliant, protected, and prepared** in today's threat landscape—without the complexity.
